

YOU'RE INVITED!

Water Stargrass Work Party

Help to restore salmon habitat in the Yakima

Saturday, July 31
Benton City

**Volunteers needed to hand pull water star grass.
This will help improve salmon spawning grounds.**

What to Bring . . .

Your own life vests*, sunscreen, hat or sunglasses, and drinking water, and a snack. "River shoes" appropriate for walking over rock riverbed must be worn.

Meet at Benton City Boat Lunch at 9 am.
We will carpool to project site.

Please R.S.V.P. by calling Rachel @
Benton Conservation District
(509)-736-6000
Rachel-little@conserveva.net

Water Stargrass, an aquatic plant growing in the Yakima River, has taken over the stream bed, making it impossible for salmon to lay their eggs.

*A limited number of life vests will be available for volunteers who don't have their own flotation.
