Section 6. Application and Agreement

- 1. I request cost-share assistance under the Conservation Commission's Cost-Sharing program to install the best management/conservation practices described on the attached worksheets and summarized in Section 5. above. These practices are needed to solve the environmental quality problems described in Section 3, and would not be performed to the extent requested and needed by me without state cost-sharing.
- 2. I understand the obligation of the conservation district to reimburse me for cost share assistance is contingent on the availability of funds through legislative appropriation and state allotment to the Washington Conservation Commission, and that when this contract crosses over state fiscal years, the obligations of the Conservation Commission and conservation district are contingent upon the appropriation of funds during the next fiscal year. I further understand the failure to appropriate or allot such funds shall be good cause to terminate this contract. I also understand that cost-share projects involving Benton Conservation District Assessment Funds that are not completed within 12 months of approval may be subject to termination.
- 3. If sufficient cost-sharing funds are made available to the conservation district by the Conservation Commission, and if this application is approved for the practice(s) requested;
 - a. I understand, I will be notified by the conservation district of the approval and funding status of this cost share assistance request within 30 days of my application, or by ______ (date) as agreed to by myself and the conservation district.
 - b. I understand I will receive cost share reimbursement only for expenses incurred after the date the cost share funds are made available by contract amendment to the conservation district by the Conservation Commission.
 - c. I agree to ensure that all applicable local, state, and federal permits are obtained for installation of the practice(s) requested, and understand that practice implementation and subsequent cost share reimbursement will not occur until evidence of obtained permits is made to the conservation district.
 - d. I agree to maintain and operate the practice(s) for its design life as determined by the conservation district and as shown in Section 5.
 - e. I agree to permit for the duration of its design life, on reasonable notice and request from the conservation district, the inspection of the location, maintenance, and monitoring of the long-term condition of the practice(s).
 - f. I understand, in order to receive cost share reimbursement, installation of the described practice(s) listed in Section 3B and 5, or identifiable unit thereof, must have occurred, the installation must have met established NRCS standards and specifications or an alternative practice design approved by a professional engineer, and the practice installation and functionality must have been verified and approved in writing by the conservation district.
 - g. I understand I will receive cost share reimbursement checks made out to me only after I provide the conservation district with "paid" invoices that demonstrate vendors/contractors have been paid in full.
 - h. I agree, for the design life of each practice, to provide the conservation district on September 1 of each year, annual proof of performance documentation as agreed to by the conservation district and myself and specified in Section 3D of the practices specified herein. ______ (landowner initial)
 - i. I agree to request of any person(s) to whom the benefited acres are transferred by sale, lease or other means to sign a statement to maintain and continue the cost shared practice for its remaining design life as a condition of ownership or control. I will notify the conservation district in writing of any change in ownership or control of the subject property within thirty days of such a change. Written notification to the conservation district will include: 1) The name of the new landowner, 2) Whether or not the landowner agrees to continue the cost shared practice, and, 3) If they agree to continue the cost share practice, a copy of the new landowner-signed statement to maintain and continue the cost shared practice for its remaining design life.
 - j. I agree to refund all or part of the cost-sharing assistance paid to me as prorated by my local conservation district, in addition to any other remedies available at law or in equity, if, before the expiration of each or any practice design life, the contract is terminated because of any of the following: 1) I fail to expend funds under this contract in accordance with state laws and/or the provisions of this contract, 2) I destroy the approved practice, sell or lease practice equipment, or 3) I relinquish management or title to the land on which the

Page 3 of 5 *Updated 7-05-11*

approved practice has been established and the new owner and/or operator of the land does not agree in writing to properly maintain the practice for the remainder of its design life.

k. I understand that the conservation district's right to a refund exists for a period not to exceed six years following contract termination, and that my refund is due within 30 days of demand. I also understand that In the event the conservation district is required to institute legal proceedings to recover the cost share assistances, the conservation district is entitled to its costs thereof, including attorneys' fees.

Section 7. Agreement Completion Certification (must be signed prior to payment)

I hereby certify that implementation of the above described BMP or conservation practices have been completed as of the date shown below, and that they meet the established NRCS specifications, or are alternative practice designs approved by a professional engineer. If cost-share payment is needed prior to completion of one or more practices, the district must verify that the practices have been completed or installed within the timeframe agreed to by the cooperator. This agreement is made in consideration of the mutual covenants set forth herein.
